40. To see if the Town will vote to raise and appropriate the sum of \$1,000.00 to be placed in a Capital Reserve Fund for the improvement of the Town Library facilities in Hopkinton Village, whether by new construction, equipment, shelving or otherwise. (This appropriation not submitted by the Budget Committee and may not be adopted) .

41. To see if the Town will vote that the office of Road Agent be elected on the ballot rather than appointed by the Board of Selectmen beginning with the March 1967 election.

42. To see if the Town will vote to amend the resolution adopted at the Town Meeting on March 9, 1965 with the respect to minimum requirements for new Town streets and roads by striking out Item 8 of the said resolution and substituting in its place the following:

“A minimum of three houses shall be located on the road or street and there shall be an adequate continuous loop around or other sufficient level turn around area provided for safe and convenient use by the public as well as Town equipment, including all necessary snow storage.”

so that the said Resolution as amended shall read as follows:

Resolved by the Town of Hopkinton in Town Meeting convened, that all private roads or streets must meet

the following minimum requirements before accepted by the Town as Town roads or streets:

1. Right of way — 50 feet
2. Pavement width — 18 feet
3. Shoulder width — 3 feet
4. Pavement — bituminous surface treated
5. Foundation — gravel depth 12 inches
6. Drainage — adequate and approved by the Town Road Agent
7. Right of way shall be clear of all objectionable materials and growth
8. A minimum of three houses shall be located on the road or street and there shall be an adequate continuous loop around or other sufficient level turn around area provided for safe and convenient use by the public as well as town equipment, including all necessary snow storage.
9. Provided that no new Town road or street shall be accepted as a public way by the Town if in the judgment of the Selectmen any portion thereof involves an unreasonably steep grade, sharp curve, or otherwise a condition such as would give rise to unreasonable danger to travellers or excessive cost to the Town with respect to its maintenance

hereby rescinding any and all previous action taken with regard to acceptance of Town roads and streets.

43. To see if the Town will vote to accept the following Cemetery Trust Funds, the income to be used as directed, subject to such provisions as may be applicable thereto:

1. The sum of \$100.00 from Roger M. & Harriett L. Atherton, plus the interest to date, for the

- perpetual care of Lot 35, Sec. C, Plots 1 & 2 in Hopkinton Old Cemetery.

REPRESENTATIVE TO THE GENERAL COURT:

Samuel Reddy, Jr.

SELECTMEN'S REPORT

Of all of the varied duties of the Board of Selectmen, perhaps none is more important (or less popular) than our responsibility for administration of the local tax system. During 1965 the total amount of taxes required to be raised from the people of the Town reached a new record of almost \$400,000, an increase of about \$40,000, or 11 per cent, over the preceding year. About one quarter of the increase was attributable to Town requirements, primarily in connection with roads and bridges, and the remainder was for the school and county tax. The net valuation of all taxable property in 1965 was determined by the Selectmen to be \$13,776,000, and the resulting combined town, county and school tax rate was \$2.90 per \$100 of assessed valuation.

The changes in assessed valuation and tax rate from 1964 are of particular interest. During 1964, the Selectmen sought to place assessments upon a conservatively estimated 50 per cent of market value basis. The State Tax Commission, however, ruled that our assessment level in 1964 was actually 41 per cent. It reached this conclusion on the basis of two surveys of selected properties in Town during 1963 and 1964 which we believe were quite limited and not entirely representative. Nevertheless, it seems likely that there was some decrease in our assessment ratio as a result of inflationary rises in property values. In view of recent statutory policy of the General Court looking toward full value assessments and the strong position of the Tax Commission supporting the same end, the Selectmen decided to double the assessment level of all properties in 1965 over that of 1964. The result was an official assessment basis of 82 per cent of market value during 1965. On this basis, the full value equivalent of the total gross assessed valuation in Town before exemptions, was \$16,800,000 in 1965 as compared with \$15,640,900 in

1964. The increase of \$1,160,000 represents new properties and some net increases on older properties found to have been previously undervalued relative to the general level of the Town as a whole.

If the amount of taxes required to be raised had remained unchanged from 1964 to 1965, the effect of doubling the assessment level would have been to cut the tax substantially in half, or to reduce it from the 1964 figure of \$5.60 to \$2.80. On the other hand, in view of the 11 per cent increase in total taxes required to be raised during 1965 the rate (based on the old forty-one percent assessment level) would have tended to increase from \$5.60 in 1964 to about \$6.22 if there had not been an enlarged assessment base in 1965 to assist in bearing the new tax burden. At the doubled, or 82 per cent, assessment level, the new rate, without increased valuations, would thus have been \$3.11 rather than \$2.90. The actual tax rate for the year, therefore, reflects a situation in which new taxable property and corrections of prior undervaluations off-set about two-thirds of the increase of the tax rate which otherwise would have resulted from the increased appropriations for the year.

The administration of the zoning ordinance has proceeded with perhaps reasonable smoothness. The Board of Selectmen processed a total of forty-one applications during the year, granting thirty-nine and denying two. Of those granted, twenty-five were for new residences and four were for additions to business establishments. The two applications which were denied sought authority to depart from the strict requirements of the Ordinance in such matters as the minimum set-back requirement, and since this authority can be granted only by the Board of Adjustment, the applicants were referred to that Board.

One of the more difficult problems encountered by the Selectmen during the year was the choice and acquisition of a suitable site for the new fire station to be located in Hopkinton Village. There was considerable interest in the so-called Frog Pond site behind the Cracker Barrel since it was thought that this area as a whole could be improved in the course of such a project, with a part of the Pond to be filled in and the balance left available to the Precinct to reclaim as a smaller but better pool. There was considerable neighborhood opposition to this location, however, and the entire matter became moot when soundings showed an excessive depth of soft matter at the bottom of the pond so that construction would have been unduly expensive. Various other sites were discussed and considered, and at length a parcel slightly in excess of one acre in size with more than 200 feet of frontage on the northerly side of the Main Street (easterly of the so-called Foote House at the outlet of Horseshoe Pond) was acquired from Robert and Ethel Sanborn for the sum of \$2,000. We believe that this will prove to be an excellent site for this improvement. We hope to have plans completed for the project during the winter so that bids may be sought and a contract awarded when good weather arrives in the spring.

Some of the items in the 1966 budget deserve special mention. Last year \$8,000 was included under Town Construction for repairs to the Blackwater Bridge on the Penacook Road. This is a one-lane bridge at the present time, and the repairs proposed would have left it so. Unfortunately, the estimated cost of a two-lane structure was \$50,000, and even with 40 per cent State participation, the Town's share of such a project seemed prohibitive. Although the repairs were ordered during 1965 as voted by the Town, delays of one sort or another intervened, and the project was not started during the year so that at the end of the year the Selectmen had

available approximately \$13,000 of unexpended highway appropriations which they were able to transfer to the highway department capital reserve fund. With this reserve available, we believe that last year's plan for repair of the old bridge should be reconsidered to ascertain whether it may be feasible now to finance the Town's share of the cost of construction of an adequate and safe two-lane bridge rather than simply to repair the existing obsolete structure. At the time that our budget for 1966 was first prepared, we planned for construction of a new bridge on the basis of the \$50,000 figure supplied to us by the State Department of Public Works and Highways with the thought that the Town's contribution of \$30,000 could be provided from the present capital reserve fund plus approximately \$8,000 of additional money in 1966 and again in 1967. Unfortunately, the State Highway Department has now supplied us with a more formal estimate for a new two-lane bridge in the total amount of \$79,500, of which the Town's share would be \$47,700, rather than the \$30,000 we had understood. The Selectmen are hopeful that it may be possible to curtail this cost in some sensible manner by a modification of the plans contemplated in the State's estimate, and we plan to take the matter up with representatives of the State Highway Department accordingly. If not, it will require two extra years after 1967, at about \$8,000 per year, to finance the Town's share of the cost of a new bridge without additional tax burden for this item above that included in our present budget. We continue to hope that it will be practicable to resolve this situation with a new bridge, which would be a permanent solution rather than a short-run improvisation that would soon become inadequate, giving rise to the present problem all over again.

Another item of interest in the 1966 budget is the inclusion of provision in 'Town Officers' expense for

\$2,500 to be used in modernizing the Selectmen's and Tax Collector's procedures in record keeping. Incident to this plan would be a complete new inventory of all taxable property in Town and an effort to develop a system of card files with complete information for each property concerning material factors affecting its evaluation. The project includes an allowance for clerical assistance to the Selectmen in setting up the new procedures as well as a modest allowance for a fee to be paid to an expert consultant who would be available to advise with the Selectmen as to valuations to be placed upon particularly troublesome properties. It is hoped that if such a revision of existing assessment procedures and record keeping can be instituted in 1966, much of the present repetitive clerical routine of the job can be eliminated in the future.

In response to a demand from several residents of the Town, the warrant for the 1966 Town Meeting includes an article to see if the people wish to vote to adjourn the meeting from the Town Hall to reconvene at the High School in the evening. This proposal is based upon the claim that the Town Hall is no longer adequate to house the meeting. The Board of Selectmen does not believe that any of the articles of the warrant this year are of such a controversial nature as will cause the Hall to be any more crowded this year, or indeed as crowded, as it has sometimes been in the past when strongly contested issues have been up for consideration. Moreover, practical experience with moving the regular school district meeting to the High School in the evening has shown that except when there are important and controversial issues, such evening meetings attract a very small attendance indeed. Therefore, we doubt that it is either necessary or wise to adjourn our daytime meeting at the Town Hall this year to the High School in the evening if our objective is to have

a good representation of voters participate in the deliberations of the meeting.

The article proposing a move in Town Meeting does serve to remind us that when the High School civics classes have congregated in the back of the Hall, it sometimes becomes awkward for our people, particularly the older ones, to move comfortably in and out. This difficulty could be greatly relieved by some increase in the available floor space in the room. A few years ago, a plan which we believe had considerable merit was proposed to enlarge the main floor of the Town Hall

by the construction of an addition to the building extending to the rear. This plan was not adopted at the time, in part perhaps because it was felt not yet to be necessary and in part because there was some concern that any such addition should not be undertaken without prior review by a qualified engineer or architect. In any case, the Selectmen have included in the budget item for the Town Hall and Other Town Buildings provision this year for examination of the building and the preparation of preliminary plans for such an expert as to how the main floor area might best be enlarged in a manner consistent with the basic construction and design of the present Building and without risk of damage to it. Any such plans or proposals would be submitted to the Town for consideration and such action as it may deem at a future meeting.

Another item of interest in the warrant contemplates the acquisition of land behind the Columbia Hall fire station not now owned by the Town and which presently grows up to brush and weeds each summer in a way which is somewhat of a hazard to the neighborhood. If this proposal is adopted, it is hoped that arrangements may become possible with the Methodist Church, which owns the premises adjacent to Columbia Hall on the south, so that a driveway can be installed and

parking provided for at least some vehicles in the rear of Columbia Hall. If this should be done we would expect to provide a new doorway at the rear of the main floor of the fire station to permit convenient access back and forth between the parking area and the station.

The Selectmen would call attention to the article in the warrant inserted by Petition for the acquisition of the so-called Vernon Smith premises which are located immediately westerly of the Drug Store block on lower Cedar Street. This Article is inserted by Petition and with the thought that, if acquired, this property could be usefully developed as an offstreet parking area.

The Bicentennial of the Town of Hopkinton is now a matter of history. An account concerning it appears elsewhere in this Town Report which you may be interested in reviewing. As we look upon the Bicentennial, we are proud of the manner in which it was planned, organized, and conducted, with all responsibilities assumed and discharged by our Townspeople, working together, to make the occasion pleasant and worthwhile. As the sunset faded and the evening deepened on Putney Hill during the outdoor vesper service with which the Bicentennial ended, we commemorated in a scene of perfect peace and beauty the end of 200 years of striving, working, playing, living and dying by the people of our Town. It was a moment of magic pause before we all returned to the tasks of the days and years ahead.

LOG OF THE HOPKINTON
FIRE DEPARTMENT

October 31, 1964 to November 1, 1965

Thirty-five alarms were received by the Department, a drop of 21 from the previous year. They were as follows:

- 13 Brush and grass fires
- 8 chimney fires
- 2 Buildings
- 2 Car fires
- 1 Auto accident setting a utility pole on fire.
- 1 faulty furnace
- 1 leaking refrigerator, removed from house using air packs
- 1 cat rescued
- 1 garage blown down in high winds
- 1 report of smoke in the woods
- 1 report of smoke coming from an attic
- 1 rubbish fire
- 1 call for leaking gasoline
- 1 fire, George's Park, vandals burned picnic tables

A surprise fire drill was held at the three schools with the following results: The Martin School, in Hopkinton Village, was emptied of pupils in 50 seconds; the Maple Street School was evacuated in 1 minute and the High School in 3 minutes. At the High School, the majority of students were on the 2nd floor when the alarm was sounded.

The 4-wheel drive vehicle that the department received from the N. H. State Forestry Division in 1964 had a pump and 240 gallon tank mounted on it. This vehicle has proved invaluable by being able to reach places inaccessible to ordinary vehicles. A second vehicle, a 1200 gallon tank truck, was received from the

State Forestry Division this year. The Department now has the following equipment in addition to the above:

- 1963 International 750 gpm pumper
- 1955 Dodge 500 gpm pumper (built by the department on a chassis purchased from funds of a Thanksgiving raffle)
- 1944 Ford 350 gpm pumper
- 1955 International 1000 gallon tank truck
- 1956 Dodge 1200 gallon tank truck
- 1948 Chevrolet 1000 gallon truck
- 1955 Ford pickup service truck (purchased through raffle proceeds)
- 1961 International ambulance

The ambulance made 71 runs, including 3 calls for the resuscitator.

Mutual aid was sent to Warner and received from Concord.

Respectfully submitted,

LESLIE C. TOWNES,

Clerk

HOPKINTON VILLAGE PRECINCT REPORT OF PRECINCT COMMISSIONERS

The principal Precinct programs in 1965 have concerned the development of our new water system.

The financial results of operation of the Water Department during 1965 are set forth in Part 2 of the accompanying Financial Report of the Precinct. During the year our two recent major construction projects, the first for installation of a gravel-packed well, hydro-pneumatic tank and 8-inch main along the Briar Hill Road and the second for a 2,600-foot main extension along the South Road, were substantially completed and were transferred from unfinished construction to permanent capital accounts. The first project was financed in part by funds transferred from the old Hopkinton Village Aqueduct Association but primarily by a \$60,000 $3\frac{1}{2}$ percent twenty-year loan which was floated in 1963 and against which two annual installments of \$3,000 or a total of \$6,000 has now been repaid. The South Road project was financed during 1965 with a \$10,000 loan on a similar basis, and the first \$500 installment against this obligation will be due in June of 1966.

The Water Department income statement reports net income for 1965 of \$735. Since this is after depreciation accruals of \$2,053, revenues for the year in fact generated approximately \$2,800 of net cash available to apply to retire debt. Operating expenses in 1965 amounted to \$1,781 and appear to have been unusually high as a result of heavy expense incurred in dealing with a frozen main along the Main Street during the winter and baffling problems which were encountered in locating and repairing a leak last spring. During 1964 the corresponding expense figure was \$1,240. If it is possible to return to the 1964 expense level during

1966, revenues should balance out reasonably well to meet all system cash requirements.

During 1965 one short line of new main was installed. This leads across Main Street and up Lilac Lane as far as the rear of the New Hampshire Antiquarian building. This line was financed by contributions from the three customers served, determined on the basis of the estimated alternative cost to each of them of replacing his prior inadequate individual service with a new service hooked up to the Main Street line.

With the projected construction this spring of a new town fire station on the Main Street easterly of the area presently served by the Water Department, the most pressing problem to be dealt with in 1966 will be the extension of water service to this new area. The Water Board has also received inquiries as to the possibility of extended service to lots under development on the Irishman's Hill Road southerly of Interstate Route 89. As extensions of this sort are made, we may hope that the day is approaching when it will become practicable to proceed with the installation of elevated storage adequate for fire protection purposes with mains and hydrants throughout the Precinct.

The summer drought and insufficient rainfall during autumn left the Frog Pond in poor condition for skating this winter. Mud humps, rocks and logs in the pond bed prevented plowing the pond at reasonable expense. Plans for 1966 include some kind of levelling of part of the pond bed, and burning off grass and weeds in the fall, to resume the skating program next winter.

The program for a new fire station in Hopkinton Village reported last year has been taken over by the Town, as voted by the residents. When the new station is built, the Precinct Commissioners plan to retain the

existing station, for storage of precinct and water department equipment and supplies.

REPORT OF THE POLICE DEPARTMENT

The full-time police department established by vote of the Town in 1964 achieved stability in 1965, through continued training of the men and a planned program of preventive law-enforcement and patrol activities. The program included day and night road patrols in the Town cruiser, regular checks of unoccupied houses and camps, installation and improvement of highway signs and markings, and attention to juvenile affairs.

The department has provided 24-hour telephone service, and prompt dispatch of officers on complaints and accidents. The local radio communication system, used together with the State Police radio network, has been improved to allow instant contact between telephone dispatch stations and the cruiser and other emergency vehicles in the Town.

Several breaking and entering cases have been solved during the year, resulting in nine felony arrests. Other cases are still under investigation. The preventive program of unoccupied house checks, and leaving inspection slips at houses checked, is expected to reduce Winter breaks this year. Juvenile problems, including use and possession of alcoholic beverages by young people, and loitering in the squares, have been reduced.

A periodic watch has been maintained on children coming and going to school, and recommendations have been made to the State Highway Dept. concerning crosswalks and signs, and to the Selectmen concerning plowing of sidewalks, to prevent hazards to children. A number of cases of cars passing stopped school buses have been reported, and warning has been given to the offenders.

The Chief has maintained the regular patrols on week days, and has been on call on weekends. A relief

officer has handled each weekend in the cruiser. Officers have been assigned as needed for accidents, and for private functions, weddings, funerals, sporting events, Hopkinton Fair, and the Bicentennial, at the expense of organizations requesting special duty. Relationships with neighboring police departments were strengthened and improved, to provide better flow of information, and better coordination of investigations for crimes spreading beyond Hopkinton.

During the coming year, I recommend increased patrol, in summer, both day and night, when the traffic and outdoor activities are at their height. I also recommend increasing the compensation of other officers in the department so that the rate of pay is more nearly similar to the pay in nearby cities and towns with active departments, by increasing the hourly rate somewhat from the present \$1.50. We plan to increase the training of officers through local classes and training courses at nearby educational institutions.

The department will work toward even greater efficiency and speed of response, so that any resident requiring police service will obtain it quickly, and to continue and increase the preventive activities so necessary for a safe and peaceful town. Residents are urged to call the police telephone number, when service is needed, or to report curious or suspicious happenings observed.

Chief of Police

REPORT OF CIVIL DEFENSE

The Civil Defense Department has concentrated on developing a rescue squad during 1965. Squad members have been recruited, training sessions have been held, and the department obtained a used International van truck at low cost through the Federal surplus property program. Squad members are now at work repairing and painting the truck, and equipping it with shelves and lockers for storage of necessary tools and equipment.

The 1965 budget appropriation has been spent largely on rescue equipment. In addition to the truck, we have procured a hydraulic rescue set, for prying open smashed automobiles and for assisting rescue in collapsed buildings. We have also obtained lighting equipment, medical supplies, small tools and rescue devices, and a warning siren for outlying parts of town which is mounted on the police cruiser.

It is disappointing that the warlike activity in Viet Nam has not caused more concern and interest among citizens at home, in preparing their homes and families for the possibility of nuclear war. Perhaps, like some dread diseases, this possibility is too awful to contemplate. But the facts are available, both about the effects of nuclear weapons and about some steps to be taken to prepare for possible nuclear war. In spite of rumors to the contrary, families would have food to eat, and the necessities of life, in an intensive nuclear situation, if certain simple preparations are made. This department stands ready to answer questions, to provide speakers and films, and to continue to organize auxiliary emergency units in the Town. Residents wishing to join an emergency unit will not be turned away.

The public fallout shelter at the Hoague-Sprague Corp. plant in West Hopkinton is stocked with emer-

gency food, water, medical supplies and radiation-measuring instruments. However, the rated capacity of that shelter of 250 persons would take care of the needs of the West Hopkinton community only. Individual families must fill the gap in other parts of town, by providing their own shelter and emergency supplies. Work is continuing on plans for protection of school children while at school, and for the orderly transportation of the children to their homes if that should be possible.

Plans for 1965 include completion of the rescue truck, further equipment for it, and work with the schools, and with church and social groups, to tell them of the facts of nuclear problems and to urge them to take action, both individually and through their groups. More personnel are needed for radiological monitoring, auxiliary police, the rescue squad, and for the inevitable administrative work which would result in a disaster.

It should be borne in mind that the value of an organized Civil Defense department was proved in the Alaska earthquake, the Louisiana floods, and other natural disasters. The value of civil defense is not limited to attack situations. More participation by the residents of this town is needed to make Civil Defense effective.

B. B. PAINE,
Civil Defense Director

REPORT OF THE BICENTENNIAL COMMITTEE

The year 1965 was a notable one for the Town of Hopkinton for it was the 200th Anniversary of our incorporation as a Town in 1765. With this in mind the Bicentennial Committee set out to present a program that would give the town a chance to know our past better and to appreciate our present good fortune.

A map and a historical booklet were printed. The historical markers were painted and the Town Pound was cleaned up. Historical and cultural exhibits were put on in conjunction with an open house tour and sports events including a baseball game, horse show, horse pulling, musket shoot, firemen's muster, and water show. An outstanding parade was presented as well as a dance and bonfire. The celebration closed with a vesper service on Putney Hill.

Many souvenirs with the bicentennial seal were sold, some are still available and will be on sale at the Town Hall on town meeting day.

Although we failed to raise as much money as we had planned we feel it was a very worthwhile project. The wonderful cooperation of all the organizations and individuals that helped in planning and producing the programs was gratifying.

The entire committee wishes to thank all of the people that helped so much and it is our wish that this spirit of cooperation will prevail in the years to come.

REPORT OF ANNUAL TOWN MEETING
MARCH 9, 1965

Meeting was called to order at 9 o'clock in the forenoon by the Moderator, Philip Dunlap. The Warrant for the call of the meeting was read.

To raise and appropriate a sum not in excess of thirty thousand dollars (\$30,000.00) and to authorize the Board of Selectmen in the name of the Town to borrow not more than \$30,000.00 and to execute and issue as evidence of such indebtedness in serial form, notes or bonds of the Town of Hopkinton under and in accordance with the provisions of all applicable laws of the State of New Hampshire, including the Municipal Finance Act, and to delegate to the Board of Selectmen authority to fix the date, maturities, denominations, interest rate or discount rate in the case of notes, place of payment, form and all other essential matters and details of said bonds or notes and providing for the sale thereof.

Bert Geer moved to pass over the Article, then asked for a 'yes' and 'no' ballot. The Moderator granted that Mr. Geer's request was in order. The result was, to pass over article — yes 46, No 144.

Herbert Hanson asked for a 'yes' and 'no' ballot on the original resolution, Yes 138, No 51.

The Moderator announced that 126 votes were needed, since there were 138 yes, the original resolution carried and was adopted in the affirmative.

Article 35: The following resolution was offered by Edward Leadbeater: Resolved by the town of Hopkinton, in town meeting convened, that the sum of \$300.00 be, and is hereby raised and appropriated, to be placed in a Capital Reserve Fund to be applied towards the cost or replacement of the town Police Cruiser at such time as in the judgment of the Selectmen, its replacement may be required. A raising of hands showed that the resolution was adopted in the affirmative.

Article 36: The following resolution was offered by Martha M. Abbott: Resolved by the town of Hopkinton, in town meeting convened, that the sum of \$1,000.00 be, and is hereby raised and appropriated, to be placed in a Capital Reserve Fund for the improvement of Town Library facilities in Hopkinton Village, whether by new construction, equipment, shelving or otherwise. Adopted in the affirmative.

Article 37: The following resolution was offered by Arland Bernier: Resolved by the town of Hopkinton, in town meeting convened, that the sum of \$6,000.00 be, and is hereby raised and appropriated, to be placed in a Capital Reserve Fund to be applied toward the cost of professional reappraisal of taxable property in the town during or commencing in 1966. (This Article is submitted by Petition).

Herbert Hansen offered the following Amendment:

Resolved that the town vote to raise and appropriate \$6,000. to be placed in a Capital Reserve Fund to be applied toward the cost of a professional reappraisal of taxable property in the town during or

commencing in 1966 and further an additional \$2,000. be raised and appropriated for professional appraisal assistance, deemed necessary by the Selectmen provided that property assessment valuation in the town of Hopkinton is on a 100% basis and not on a fractional basis. Any balance unexpended at the end of the year to be added to the Capital Reserve Fund of \$6,000. provided above.

Herbert Hansen offered the following Amendment to the Amendment:

Resolved that the Town vote to raise and appropriate \$6,000. to be placed in a Capital Reserve Fund to be applied toward the cost of a professional reappraisal of taxable property in the Town during and commencing in 1966, and further that an additional \$2,000. be raised and appropriated for professional reappraisal.

A lengthy and informative discussion followed, with many voters participating.

The Moderator then called for a 'yes' vote on those in favor of voting on the amendments. There was no opposition.

Dorris Davis called for a 'yes' and 'no' ballot on the Amendment: Yes—53, No—118. Amendment failed.

George Dane called for a 'yes' and 'no' ballot on the original resolution: Yes—70, No—98. The original resolution was lost.

Article 38: The following resolution offered by W. H. Rodkey: Resolved by the town of Hopkinton, in town meeting convened, to amend the resolution adopted at the Town Meeting on March 12, 1963, with respect to minimum requirements for new Town Streets and Roads by inserting after Item 8 of said resolution the following:

“Provided that no new Town Street or Road shall be accepted as a public way by the Town if in the judgment of the Selectmen any portion thereof involves an unreasonably steep grade, sharp curve, or otherwise a condition such as would give rise to unreasonable danger to travellers or excessive cost to the town with respect to its maintenance.”

so that the said Resolution as amended shall read as follows:

Resolved by the town of Hopkinton, in town meeting convened, that all private roads or streets must meet the following minimum requirements before accepted by the Town as Town Roads or Streets;

- (1) Right of way — 50 feet
- (2) Pavement width — 18 feet

HOPKINTON SCHOOL DISTRICT REPORT OF THE SUPERINTENDENT OF SCHOOLS

At the Special School District Meeting in March 1965 the School District voted very decidedly against the formation of a Cooperative School District with Bradford, Warner and Webster. Since that time Webster has joined with several other towns and formed the Merrimack Valley Cooperative School District. Warner and Bradford are engaged in a similar study with Sutton, Newbury, New London, Springfield, Andover and Wilmot. These school districts will vote on the question on February 21st 1966. If one of two of the key towns vote in favor of the proposal, then a cooperative will be formed within a short time.

Since the annual meeting a committee has been studying the housing needs of the high school and will have a report for the meeting of March 9, 1966 with the possibility of having a special meeting later on in the year to vote on the addition. The Hopkinton people have said that they preferred a "Go It Alone" Policy. The proposed school budget and the recommendations of the Building Study Committee will reflect that decision.

The addition to the Maple Street School at this point (January 20th) is rapidly nearing completion. The ceilings will be completed shortly and the light fixtures are being installed. This will only leave the laying of the tile floor and a few other odds and ends before the building will be ready for occupancy. There is some outside work such as seeding the grounds and putting a hard surface around the building still unfinished. We had hoped to be able to be in the addition after the Thanksgiving recess, but slow delivery of the bar joists and other materials held up construction. We should be able to get into the building sometime dur-

ing the first of February. The two elementary schools have been crowded and conditions have been far from ideal. Much credit is due the teachers who have had to work under difficult conditions, and parents who have had to have their children transported to another school. The school board and the superintendent appreciate this splendid cooperation.

A new trend in school organization has been occurring in some communities which has considerable merit. Most of you are familiar with the three year high school, three year junior high school and six year elementary (6-3-3), the eight year elementary, four year high school (8-4), and the organizational pattern of six year elementary and six year high school (6-6) such as we have. The main reason for our having the 6-6 plan is that grades seven and eight have been able to use expensive facility rooms in the high school such as Science Laboratories, Shop Areas and Home-Making Areas. The new concept is to have a 4-4-4 organization. This provides for a primary school, a middle school and a high school. This would mean building some of the expensive facilities for a middle school, and we do not have enough children to justify this. However, we could modify it by having a primary school (grades 1 and 2), a middle school (grades 3 through 6), where we could do departmentalized work, and a six year high school such as we now have. Certainly it is something to consider over the coming years.

At the last school district meeting some confusion developed when one of our local citizens moved that the Superintendent's salary be cut. The motion was finally ruled out of order, and properly so, because the school district does not determine what the budget of the Supervisory Union shall be. Supervisory Unions are corporate bodies which may own property and employ personnel just as a school district does. The Supervisory

Union Board is comprised of all the school board members from the individual towns and this Union School Board meets in November to decide on a budget for the coming school year. After the budget is made each school district is assessed its share on a formula determined by the Legislature and this assessment must be paid by the school districts much as the county tax must be paid by the towns. "The basis for apportionment shall be one half on the average membership for the previous year and one half on the equalized valuation." Each November then, twenty-one board members, acting as a Union Board, sit in Judgment on the Superintendent and decide his fate. However, this group is well informed about Superintendent's duties, what Superintendent's salaries are in the state and how well a particular Superintendent is performing his duties.

Some people may not like this arrangement, but this is the law of the state. This incident has much broader implications, particularly in regard to teachers. If this could be done to the superintendent, how easy it would be to subject teachers who happened to gain disfavor with a parent to the same type of attack. I can think of no quicker way of destroying the morale of a teaching staff than by subjecting an individual teacher to an attack in open meeting for real or imaginary reasons. If a parent has a complaint about a teacher the problem should be discussed with the teacher, and if the parent still is not satisfied, he should meet with the principal, superintendent and school board in that order.

The school budget has increased considerably due to several factors. The school board are doing some things that should have been done before. The new addition means an increase of over fifteen thousand in interest and principal payment. Two new teachers are being planned for the elementary school. One teacher is a new fourth grade teacher to follow our program. The

other is a sixth grade teacher because we still have at least sixty-three pupils in grade six; thirty-five at the Martin School and twenty-eight at the Maple Street School. Two new teachers are also being added to the high school staff, and Mr. Milne's report explains the reasons for this. Custodial salaries in the two elementary schools have been low and the Maple Street School needs practically a full time custodian.

What the future holds for Hopkinton under a "Go It Alone" plan, no one knows. Certainly more and more districts are being formed into larger school districts in New Hampshire. Will these small districts become isolated islands struggling to hold back the tide? What happens to these little islands competing against larger more efficient units? Only time will tell.

Of the above 41 graduates, slightly better than 68% have gone on to further their education. 12 of the latter are going to four year institutions. Those going on are attending the following places: Vermont College, Becker Junior College, New Hampshire College of Accounting, Northeastern University, Margaret's Beauty School, New Hampshire Technical Institute, Mt. Sinai School of X-Ray, Plymouth State College, New Hampshire State Hospital School of Nursing, Syracuse University, Keene State College, Bucknell, University of New Hampshire, New Hampshire Vocational Institute, Massachusetts Institute of Technology, Concord Beauty School, McLean Hospital School of Nursing, Manpower Training Development School, University of Louisville, and Michigan State University. Of the remaining students, 10 are gainfully employed, 2 are married, and 1 is doing post-graduate work.

Hopkinton High School continues to receive recognition for outstanding contributions. Our school paper, the *Howitzer*, won first place recognition from the Columbia University Scholastic Press Association. In the State Mathematics Contest, Hopkinton placed ninth in the total team scores and first in the small public High School Class. This year the project on the Town Report, prepared by the Civics Class, won a \$200.00 award from the Sears Foundation. Our athletic teams also fared well, winning the Class M Basketball Title and the State Soccer title.

In September of 1965, there were two new faculty members: Mr. Robert Wirta, Social Studies and Coaching, and Mr. William Kulbacki, Science and General Mathematics. This year we have three divisions in the Junior High in mathematics, English, and social studies. An additional Science teacher has been requested so that we will be able to have a third division in Junior High Science. This new Science teacher would enable us to institute a new approach to the teaching of Biology. It would also be possible to give someone time to begin functioning as a department head. Another English-Social Studies teacher has been requested so that we might have three sections of English in Grades 9 through 12. Currently we have two sections of High School English that are close to the maximum permitted. This new teacher would also permit giving a Social Studies teacher some time to begin functioning as a department head.

Our problems are still the same — additional space and more adequate facilities in some areas. We should have a third division in Junior High Science, add an additional Foreign Language, strengthen our Social Studies program and have more laboratory space for Science. There are other areas in which we could improve. Our shower facilities are inadequate. Many com-

munities are faced with similar problems and have found solutions and I am confident that the people of Hopkinton will also solve their educational problems.
